ClaimSathi Demo Dataset — Answer Key (for builders, do NOT upload)

Use this to test whether ClaimSathi's verdicts are correct. Every case uses the shared policy wording 00_Policy_Wording_Samvad_Health_Shield.pdf.

Case 01 — Mr. Rajesh Kumar Mehta — Expected: STRONG CASE (₹2,37,000)

• Policy first incepted 15-Jun-2019; date of admission 03-Aug-2026 = 85+ months of continuous coverage (>60 months).

• Clause 6.4 / IRDAI Moratorium: after 60 months, a claim cannot be contested for non-disclosure unless established fraud. Letter alleges no fraud.

• Clause 6.1 itself is expressly 'subject to Clause 6.4'.

• Letter cites only a vague 'Disclosure of Information clause' — no specific clause number (Clause 5.4 requires a specific clause).

• Letter does not state Claims Review Committee approval (Clause 5.4; IRDAI Master Circular 2024).

• Letter does not mention grievance / Ombudsman options.

• Bonus: the claim is for a heart attack, not diabetes treatment; diabetes is a risk factor, not the treated condition.

• Recoverable: full admissible bill within ₹5,00,000 SI.

Case 02 — Mrs. Sunita Prakash Patil — Expected: STRONG CASE (₹48,500)

• Cataract (phacoemulsification + IOL) is listed as Day Care procedure DC-01 in Annexure I.

• Clause 1.5 itself says the 24-hour limit does not apply to Day Care procedures; Clause 2.2 covers Day Care even under 24 hours.

• Excl02 24-month waiting for cataract: first inception 01-Jan-2023 → 44 months before surgery, waiting period completed.

• Insurer quoted Clause 1.5 selectively, ignoring its own exception.

• Sub-limit check: cataract limit = lower of 25% SI (₹75,000) or ₹60,000 per eye = ₹60,000. Bill ₹48,500 is within limit → fully payable.

Case 03 — Mr. Vikram Shrikant Joshi — Expected: STRONG CASE (₹1,31,000)

• Excl01 in the policy wording states 36 months PED waiting, NOT 48 months as quoted in the letter.

• IRDAI (Insurance Products) Regulations 2024 cap PED waiting at 36 months.

• First inception 10-Nov-2022 → admission 20-Sep-2026 = 46 months (>36 months). PED waiting completed.

• PED was declared and accepted, so no non-disclosure issue.

• Letter does not mention Ombudsman option.

Case 04 — Mrs. Anita Rohan Desai — Expected: VALID REJECTION (₹3,02,000)

• Joint replacement + osteoarthritis are listed under Excl02 with 24-month waiting.

• First inception 01-Mar-2026, surgery 18-Sep-2026 = ~6.5 months. Waiting NOT completed.

• No accident (Excl02 accident exception doesn't apply). No portability credit.

• Letter cites specific clause, mentions Claims Review Committee approval and grievance/Ombudsman options.

• Correct output: honest 'rejection appears valid' + advice (keep policy renewed; claim payable after 01-Mar-2028).

Suggested demo order

SAMPLE — FICTIONAL DEMO DATA
Not a real insurer, hospital or person

1) Case 01 (hero: ₹2.4L heart attack, moratorium violation) → 2) Case 04 (proves honesty: valid rejection) → 3) Case 02 or 03 if time allows.
